

MADE IN GERMANY

# a1 medical

## CERAMIC COATING

- ... LONGER PRODUCT LIFE
- ... EASIER CLEANING
- ... REDUCED EYE-FATIGUE
- ... 100 % BIOCOMPATIBLE
- ... ANTI ALLERGIC

## CERAMIC COATING

### ORDER INFORMATION

Please add „C“ to the end of the article number. e.g. F-0010C

... **improves instruments:**

- cost reduction and longer product life through
  - higher surface hardness** – up to 10 times harder than stainless steel
  - lower friction** – improves wear and tear of scissor blades
  - more resistance** against corrosion
- reduced eye-fatigue through less glare due to light absorbing black surface
- easier cleaning and reprocessing due to lower surface energy and non-stick effect
- anti-allergic due to absence of Chromium and Nickel in surface layer

... **established in cardiology and neurology**

... **consists of TiAlN, applied in a magnetron sputtering process**

... **is 100% quality controlled and comes with lifetime warranty**
